

# Grant Lam

510-552-6085 | grant.m.lam@gmail.com | linkedin.com/in/grantlam | grantlam.github.io

## EDUCATION

**University of California, Davis**

**Davis, CA**

*Bachelor of Science in Computer Science*

Expected Graduation March 2016

- **GPA:** 3.7 / 4.0
- **Minor:** Statistics
- **Honors:** Dean's List, Golden Key International Honour Society

## PROJECTS

**Online Bang! Card Game, *Personal Project***

December 2015 – Present

- Working on the backend development, such as game design, flow, client-server
- Utilizing Java 8, Lombok, Maven, Spring

**Stack Overflow Web Scraper, *Statistical Computing***

December 2015

- Scraped tagged questions, answers, and comments using Rcurl and XML packages in R
- Used XPath to query information such as user, id, or date within HTML tags

## EXPERIENCE

**Workday**

**Pleasanton, CA**

*Software Development Engineer Intern*

June 2015 – September 2015

- Created a microservice to estimate the time it takes to process a given request based on historically similar request processing data
- Used Apache Hive to query hundreds of GB of data from Stats Warehouse, joining access logs from different departments
- Wrote R and Java code to build linear regression models, utilized streams API from Java 8 for parallel processing
- Populated Redis database with value/key pairings based on regression model
- Used Spring MVC Framework to create a servlet to allow queries on key/value pairs and deployed on local Jetty server

**Micrel Semiconductor**

**San Jose, CA**

*Systems Intern*

June 2014 – October 2014

- Programmed a Windows Batch Script to automate the presentations for FAB TV based on quarterly aspects
- Assisted in reverse engineering 25 years of Assembly Instructions (AIs) in a variety of formats, including PDFs and Word documents so that they may be added into a SQL database
- Analyzed and categorized AIs and wrote custom scripts to convert them to Excel files, then created packages in SQL Server Management Studio to import these Excel files
- Created reports in SQL Server Reporting Services and deployed them on Micrel's intranet

**Computer Science Club Tutoring Committee**

**Davis, CA**

*Tutor*

February 2014 – April 2015

- Assisted students in "Programming and Problem Solving" with pointers, memory allocation, etc in C
- Tutored students in "Algorithm Design and Analysis" with complexity, dynamic programming, etc

## SKILLS

**Languages:** Python, C/C++, Java, R, Bash shell, Windows Batch, SQL, Hive

**Tools:** Linux, Vim, GDB, Git, R Studio, SQL Server, Eclipse, Spring, Jetty, Redis, Gradle
